THE FIRST EDITION

Bridging Heritage and Future

The inaugural edition of Art in Motion brought together Indonesian and Dutch artists to celebrate shared heritage and envision a brighter future. This interdisciplinary initiative showcased exceptional talents through dance, music, fashion, painting, sculpture, performance art, and more, culminating in a breathtaking finale in March 2024.

First Workshop

Ms. Annisa Retni Maharani and team from Parongpong stole the show with her masterpiece, *Vice Versa*, captures the dynamic relationship between Indonesia and the Netherlands and encourages youth generations to pursue their dreams and drive national progress with hope and optimism. Blending modern instruments like drums, guitars, and keyboards with traditional sounds from the kacapi, flute, and drums, this piece symbolises collaboration and mutual growth.
